Dockets 98N-1230; 96P-0418;97P-0197

This is a request to the FDA to ban forced molting of laying hens. It has been scientifically shown to promote disease by destroying the starving hens' immune systems.

We have so much disease in HUMANS because of our behavior towards farm animals.

The FDA has jurisdiction over farm practices. Please use that authority to prevent dangers to human health and cruelty to farm animals.

Contamination of our food is directly linked to these abuses of farm animals.

Thank you.
